CELEBRATING 30 YEARS

Over the centuries, dance has been the means for passing stories from generation to generation, and as a catalyst for expressing feelings toward loved ones - such is the way with jewellery. Both artful mediums focus on dramatic curves and precise virtuoso techniques imparting ideas and telling a story.

Every jewel is a new story, a new song, a new ballet, casting a fresh light on all things possible; where every design combines a touch of history with hints of the future. Calleija's inspiration for our 30th anniversary collection rose from this fusion of modern and classical, artistic flourishes and flowing movement expressed in complex arches, colour and crescendos mirrored in the graceful art of ballet.

Be inspired to tell your story through your jewellery. Share your feelings and emotions in beautifully crafted creations. Seize the moment to have your dreams and desires harnessed in a Calleija design to be enjoyed with love.

Proud to be an Argyle Pink Diamond Select Atelier for over two decades, Calleija is recognised for their dedication and knowledge in creating the finest pieces of Pink Diamond jewellery as seen on royalty, actresses and loyal clients worldwide. As a leading specialist in Argyle Pink Diamonds, Calleija has a practiced eye for selecting the most beautiful and rare treasures of nature. We go to great lengths to acquire the best Pink Diamonds at the invitation-only annual Argyle Tender, where the rarest Pink Diamonds are sold to the highest bidders in a secret ballot. A variety of diamonds ranging in colour from pale rose blush to vivid purplish pink, and occasionally striking reds, have been sold at the Argyle Pink Diamond Tender, which also happens to be celebrating its 30th anniversary along with Calleija in 2014.

The Diamond Mine is rapidly approaching extinction and, to put the true scarcity of these exquisite diamonds into perspective, it is interesting to note that since the mine began production in 1984, only 1% of the 600 million stones produced from Argyle are pink. With less than six years of production remaining in the Argyle Diamond Mine, where very few Tender Diamonds are said to remain, "Argyle Pink Tender Diamonds are literally one in a million" says John Calleija. "Born over billions of years, these incredible diamonds are one of nature's rarest creations and truly a unique heirloom that you may only ever see once in a lifetime".
